## Monte Sereno Names Terry Blount as City Manager

**MONTE SERENO, CA** -- The Monte Sereno City Council has unanimously appointed Terry Blount as the next City Manager for the City of Monte Sereno. A public employee for over 18 years in the field of municipal planning, Terry most recently served as Assistant Community Development Director and Planning Manager for the City of Mountain View since 2013. Over the course of his career and prior to his appointment to the City of Mountain View, he has held progressively more responsible and complex positions in the cities of West Hollywood, Martinez, and Berkeley. He has had the long-term career goal to serve as a City Manager.

“I am delighted that Terry will be joining the City of Monte Sereno,” said Monte Sereno Mayor, Marshall Anstandig. “He has a tremendous breadth of experience in municipal planning and a strong commitment to public service. I have great confidence that Terry will provide the leadership that is needed to serve the residents of Monte Sereno and to support the Council to achieve our City’s goals.”

The City Manager serves as the City’s chief administrative officer and reports directly to the City Council. The City Manager is responsible for the administration of day-to-day municipal operations and the implementation of council policies. The City Manager is also responsible for overseeing Monte Sereno’s \$4 million annual budget.

“I’m honored to have been chosen to be the City’s New Manager and look forward to assisting the City Council with fulfilling its identified goals,” Blount said.

Blount will begin as City Manager on June 19, 2017.
